

COMMENT MODULE TITLE Families in East Asia I. Version Jan. 4, 2007.
COMMENT MODULE YEAR 2006.
COMMENT This is the Standard Setup for 2006 EASS module 'Families in East Asia I'.

IMPORTANT!!!

The value codes and labels in this setup file are mandatory for all variables, except for those not explicitly designated as country-specific.

The variables that are asked by all participating countries are named as v1, v2, v3, etc.

The optional variable names begin with 's' and the country abbreviation is added at the end, like e.g. 's1_KRTW' for the optional variable #1 that is asked by Korea and Taiwan but not by others.

Country-specific variables are marked by a prefix with the country abbreviation, like e.g. 'KR_DEGR' for the country-specific education variable from Korea.

NEED TO CHECK!!!

1. The value labels of RELIG (R's religion) should be revised.
2. The value labels of country-specific variables should be modified by each country.
3. Although the variable names, codes, and labels in this setup file have been agreed upon by the participating countries, some unwitting errors or mistakes could possibly be identified later on, and thus corresponding remedies might have to be followed up in due courses.

ANY COMMENTS ARE MORE THAN WELCOME!!!
